

Prompt level data sheet

Write down how much help each try needed, so you can see the help fading toward alone.

1. Write your moving rule at the top, such as "two correct in a row, drop a level."
2. For each try, write the code for the help given.
3. Count the I's for the day. That number should climb.
4. Codes: FP full physical · PP partial physical · M model · G gesture · V spoken hint · I alone.

Learner (initials or a code)	Skill	Moving rule
------------------------------	-------	-------------

The grey row is a made-up example.

[illegible]
